### President's Letter

Sitting on the porch at 475 Homer Avenue, one might see the Woman's Club as a wonderful place for lunch once a month. My interest and participation in the Club has increased dramatically since joining 7 years ago and now I have signed on as your President for two years. Starting with Eileen's Presidency, strategic planning has almost finished. What is the future of the Woman's Club from the perspective of the various planning sessions? Right now there is a conflict between members wanting dependable access to the Club and its unavailability because of the need to generate income through rentals.

Membership is full, 225, and there is a waiting list. The Clubhouse that we all own a piece of is 'getting fit' (maintenance) as she approaches her 100<sup>th</sup> birthday. Due to the efforts of a small, dedicated volunteer group who manage rentals, the Clubhouse has become a popular venue. However, as the Finance Committee reviewed the current budget, some little known and even less appreciated financial facts about this year's (FY13-14) budget need to be shared.

#### According to our finance committee:

Membership dues plus luncheon assessments paid only 30% of the cost for 'keeping the lights on' in the house and supporting our programs. Rentals income represented 62% of the Club's income and subsidized the cost of maintenance and programs. Fixed costs alone made up 44% of this year's expenses; more than members' dues. Program expenses: luncheons, socials, and other uses of the club for member activities cost 56% of the expense budget, and were 138% of members' dues. Necessary work on the Clubhouse 'to keep our lady fit' this year, funded from savings, is equal to a \$373 contribution by each member.

As members, we all own this building. There is no endowment. My goal is to encourage all members to build friendships, increase participation in activities offered, and to keep the clubhouse fit. Together, we each own 1/225th of this grand old lady. With our membership comes the obligation of dues, luncheon help, and also, stewardship of our building.

So how do we resolve the issue of enjoying a club-

house and yet paying for its upkeep? Do we double the dues? Do we assess each member an amount to cover upkeep of the house for a few years? Do we hire a house manager to rent out the club more frequently and limit member access even more? Do we all work together on a fundraiser that will raise the roof, so to speak? You tell me! You will have an opportunity in March to share your opinion. *Please come to the General Business Meeting on March 20th and voice your opinion, unless you want others to choose for you.* See you at lunch! ## January 8, 2014 Board Meeting

Sarah French reported on the work of the Friendship Strategic Planning Group. One directive was the need for sponsors to be more involved on an ongoing basis. Glanckopf shared a copy of the brochure "Notes for Sponsorship of New Members" that addresses what sponsors should do. It was agreed that the information in the brochure should be included in the directory and on the website. A defined process is needed for matching prospective new members with current members. Also, recent current members need to talk to new members about their experiences. Special interest groups should encourage new members to get involved. Annette Glanckopf proposed creating a group to talk about the big issues in membership, to prioritize the Friendship Report suggestions.

### Janitorial Issue: The following motions were passed.

Beginning January 1, monthly rate for house maintenance shall be increased from \$450 to \$550. The additional \$100 per month should cover the cost of liability insurance for the current house cleaner.

That the Club pay the house cleaner for laundry done after club events, an additional \$50 per event that creates laundry. House and Grounds will also budget for an annual deep cleaning of the kitchen.

That the Club work with the house cleaner to find Workman's Compensation coverage by March 1. This may result in an increase in the Clean-up Fee paid by future renters and by club for club events.

**Motion:** Any contributions that members make for philanthropy as part of dues will be added above the budgeted philanthropy allocation.

**Motion:** That cash contributions made to Historic Preservation shall be used as a part of the annual budget allocation for House and Grounds. Larger, specifically designated donations for the Clubhouse or grounds should be administered through the capital budget.

**Motion:** The Board should save at least 10 percent of its projected income each year to build the Capital Budget to address operating contingency, emergency contingency, and maintenance and replacement needs of the house. This money should not be allocated into the Capital Budget until the books are closed at the end of each fiscal year.

**Motion:** As early as possible a project manager will tell the board of a budgeting problem. Finance officer/Treasurer will figure out where to find the money. Board will vote on revising, delaying, killing or funding the change in the allocation of funds for a project.

**Motion:** the Woman's Club shall not have any employees. All service providers shall be independent

contractors who can provide, upon request, acceptable documentation that they are independent contractors.

### Budget Adjustment Approval for FY2013-14:

Monroe reported that we will make our income target and first steps are being taken for next year's budget. There will be a new expense heading: Club Projects.

Capital Improvement budget – came in way under budget on the rewiring of the house. There is a project over-run on the ADA ramp project

**Membership:** Annette Glanckopf reports that there are 19 women on the wait list. Two members have transferred in to our club from other locations.

**Nataly Funk** is from Hamburg, Germany. She was in Sales & Marketing in the Hospitality Industry. Her husband's work in biotech brought them to the area. Their son Cornelius graduates from a German Boarding School this summer. Their daughter Cynthia attends the German International School in Mountain View. Nataly enjoys tennis, biking and taking her dog to the beach.

**Joanne Jones** comes from Oslo, Norway. In Oslo she completed a Masters degree in Landscape Architecture, focusing on cleaning the waterways of Dar es Salaam in Tanzania. She was a member of International Club Oslo, Norway (ICON). Although born in Canada, Joanne spent most of her adult life elsewhere, having lived in England, Seychelles, Samoa, Vancouver, Oslo and now Sunnyvale. As a member of ICON, she participated in Mah Jong, quilting, a cinema club and a book club. Joanne is already participating in bridge and she looks forward to participating in the book club!

### History Corner

#### The Woman's Club Copes with the Depression

In a previous History Corner, Jeanne McDonnell took us on a trip down "memory lane" to the Woman's Club in the 1990s. I'd like to take us back to 1933-1934, when the "ladies of the club" struggled with the financial challenges of the Depression. The Board minutes of that period present a moving picture of how the leaders worked to hold the institution together with the usual array of concerts and lectures. As they faced resignations due to monetary issues and to pay the normal operational bills, they discussed the financial health of the club at almost every meeting. Then new members paid a \$1.00 initiation fee and \$4.00 annual dues. Fundraisers such as a bake sale in the spring of 1933 netted \$18.90 while the balance in the bank stood at \$94.63. Even so, in 1934, the Board voted not to raise the dues and to allow members in arrears to retain their "good standing." The Board soldiered on bravely, planning a Big Game luncheon at \$.50 per person for November 20, 1934; members paid \$.60 to attend the annual luncheon. At the end of 1934, the Board reported that the Club met its financial obligations, including a hefty bill for insurance, and had a bank balance of \$82.03.
